ROBERT BENTLEY
GOVERNOR

The State of Alabama is full of many beautiful, and often undiscovered, landscapes. Regardless of being a lifelong resident in our state, there are many sights I have yet to explore. As your Governor, I hope to visit every county and get to know first hand the vast array of resources our state has to offer.

As a citizen, your way to explore our state is through "Passport to Fitness." This program, sponsored by the Alabama Department of Economic and Community Affairs, combines fitness with the extensive walking trails that covers 85 different paths. Not only will you be doing yourself a great service to explore Alabama as you exercise, but you will connect with fellow Alabamians as they do the same.

I hope that you will join with me in this exciting program to experience our State in new ways while becoming physically fit! There are many volunteers who have worked extremely hard to make this possible and their work should be both celebrated and appreciated. The state Department of Conservation and Natural Resources has been a great partner in this program and join with me in inviting you to experience our state parks and the natural trails within them.

In the days to come, I hope you get moving and enjoy Alabama! Discover new trails and celebrate the natural beauty that is Alabama!

Sincerely,

Robert Bentley Governor
